

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product Identifier

Trade Name	Perlite
Product SDS Code/No	612002
EC No	618-970-4
CAS No	93763-70-3
Product Typr	(0,00-0,60)mm, (0,60-1,20)mm, (1,20-2,40)mm, (1,20-2,40)mm, (0-1,2)mm, (0-2,4)mm

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advised Against

Relevant Identified Uses	Filter aid, cryogenic, insulation, building materials, construction, textile, agriculture and industrial use.
Uses Advised Against	Not available

1.3 Details of the Supplier of the Safety Data Sheet

1.3.1 Manufacturer

Manufacturer Name	KADIOĞLU MADENCİLİK SANAYİ VE TİCARET A. Ş
Address	Kurtuluş Mahallesi Sanayi Caddesi No:78 Karabük, Türkiye
Telephone Number	+90 370 424 1050
Fax	+90 370 415 6650
E-mail	kadioglu@kadioglumaden.com.tr
Webpage	www.kadioglumaden.com.tr
Information Providing Authority About SDS	Turgut BENEK – turgut@kadioglumaden.com.tr

1.4 Emergency Telephone Number

Company Emergency Telephone Number	+90 370 424 1050
Opening Hours	Working hours
Morocco National Emergency Number (Ambulance, Fire Brigade)	Phone: 15
Morocco (Centre Anti-Poison et de Pharmacovigilance du Maroc)	+212 537 68 64 64 / 0801 000 180 (24 hrs)

2. HAZARDS IDENTIFICATION

2.1 Classification of the Substance or Mixture

2.1.1 Classification According to Morocco Decree No. 2-12-172 and Regulation (EC) No 1272/2008 (CLP)

· Not classified under the CLP regulation

2.1.2 Additional Information

For full text of Hazard- and EU Hazard-statements: see Section 16

2.2 Label Elements

2.2.1. Labelling According to Morocco Decree No. 2-12-172 and Regulation (EC) No 1272/2008 [CLP]

Product ID

2.3 Other Hazards

This substance does not meet vPvB / PBT criteria of Regulation (EC) No 1907/2006, Annex XIII. The substance is not included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties. The substance is not considered to have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

Dust may cause mechanical irritation to the respiratory tract or eyes.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

SUBSTANCE NAME	EC/EINECS NO.	CAS NO.	WEIGHT % CONTENT (OR RANGE)	CLASSIFICATION
				(Morocco Decree No. 2-12-172 and CLP)
Expanded Perlite	618-970-4	93763-70-3	100	Not classified

3.1.1 Notes

Description:

Basic coated electrode flux

Additional information:

For full text of H-statements, see Section 16

Not applicable

3.2 Mixtures

Not applicable.

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Reissue and Release Date: 1.10.2024

4. FIRST AID MEASURES

4.1 Description of First Aid Measures

4.1.1 General Notes

The first aider must protect herself/himself. Move away from the danger area. Remove contaminated clothing immediately.

4.1.2 Following Inhalation

Take the exposed person to the open air and rest. In case of loss of consciousness, the patient should be carried in recovery position.

4.1.3 Following Skin Contact

Wash immediately with plenty of soap and water. In case of thermal burn, flush with water for at least 15 minutes.
Remove contaminated clothing and shoes. Wash clothing before reuse. Clean your shoes thoroughly before using them again.
Seek medical attention if irritation occurs.

4.1.4 Following Eye Contact

Remove contact lenses, if easy to do. Immediately rinse with plenty of clean water for at least 15 minutes.
Consult an eye specialist.

4.1.5 Following Ingestion

Do not vomit. If the person is conscious, rinse mouth, drink plenty of water.
Consult a doctor if symptoms persist.

4.1.6 Self-Protection of the First Aider

Not available

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

In Case of Inhalation	No information
Skin Contact	No information
Eye Contact	No information
(Digestive) In Case of Ingestion	No information
Other	No information

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

No specific information. See Section 11 for more detailed information on health effects and symptoms..

5. FIREFIGHTING MEASURES

5.1 Extinguishing Media

Suitable Extinguishing Media	Carbon dioxide (CO ₂), foam, fire extinguishing powder.
Unsuitable Extinguishing Media	No information

5.2 Special Hazards Arising From The Substance Or Mixture

Hazardous Combustion Products	This substance is not flammable and does not emit hazardous decomposition products when exposed to fire.
Damages Related to Combustion	No information.

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0

Preparation Date: 01.10.2024

Form No: 612002

Reissue and Release Date: 1.10.2024

Explosion-Related Damages	Very fine dust suspended in the air can cause dust explosions under certain conditions.
Hazards Related to Reactivity	No information.
Other Remarks	No information.
5.3 Advice for Firefighters	
Fire Fighting Instructions	Do not stay in a fire hazard area without wearing appropriate equipment.
Protective Equipment for Fire Fighting Personnel	Firefighters should wear appropriate protective equipment and self-contained breathing apparatus.
Other Remarks	Fire extinguishing water should be used as in Section 6.2.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions, Protective Equipment And Emergency Procedures

Use exposure control and personal protective measures detailed in section 8.

6.1.1 For Non-Emergency Personnel

Protective Equipment	The use of a respiratory mask is beneficial and mandatory.
Emergency Procedures	Provide adequate ventilation.
Other Remarks	No information.

6.1.2 For Emergency Responders

Protective Equipment	Use appropriate personal protective equipment.
Emergency Procedures	Prevent personnel without protective equipment from entering the hazardous area until proper cleaning has been completed.
Other Remarks	Make sure personnel thoroughly read and understand all safety precautions.

6.2 Environmental Precautions

Prevent material from entering waterways. No specific environmental hazards are associated with this substance.

6.3 Methods and Material for Containment and Cleaning Up

Please act in accordance with local regulations.

Collect the material mechanically (shoveling or vacuuming) and place it in suitable containers for disposal. Avoid generating dust.

6.4 Reference to Other Sections

See Section 7 for information on safe use.

See Section 8 for information on personal protective equipment.

See Section 13 for information on disposal.

7. HANDLING AND STORAGE

7.1 Precautions for Safe Handling

Ensure proper handling in accordance with good industrial hygiene practices and safe use procedures.

Refer to Section 7 for information on safe use. Obtain information on personal protective equipment from Section 8. Refer to Section 13 for information on disposal.

7.1.1 Protective Measures

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

7.1.1.1 Measures to Prevent Fire

Provide adequate ventilation in the workplace. Smoking should not be allowed in the usage area.

7.1.1.2 Measures to Prevent Aerosol and Dust Generation

Avoid creating dust. Provide adequate ventilation in areas where dust is generated. Use protective equipment to avoid inhalation and contact with eyes and skin.

7.1.1.3 Measures to Protect the Environment

Prevent mixing with sewage/surface water/groundwater. In case of mixing with water or sewage, notify the competent authorities and inform the officials

7.1.2 Advice on General Occupational Hygiene

Adherence to industrial hygiene standards is mandatory to prevent ingestion, eye, and skin contact during chemical usage.

After work, wash your hands thoroughly with plenty of water and soap.

Ensure proper ventilation at the workplace.

Smoking, eating, and drinking should be prohibited in the application area. Contaminated clothing and protective equipment should be removed before entering eating areas.

Separate rooms are required for washing, showering and changing clothes.

Dirty work clothes should not be taken out of the workplace.

7.2 - Conditions for Safe Storage, Including Any Incompatibilities

Technical Measures and Storage Conditions	Store in a cool, dry place away from moisture. Keep containers tightly closed to avoid dust dispersion. Store in a dry environment away from acids and bases.
Packaging Materials	All products should be kept closed in their original packaging when not in use.
Requirements for Storage Rooms and Vessels	Take the necessary measures to prevent the handling of incompatible substances or mixtures.
Storage Class	Not available
Further Information on Storage Condition	No information

7.3 Specific End Use(s)

Take the precautions required for the specified end-use applications in Section 1.2.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control Parameters

8.1.1 Occupational Exposure Limit Values

Total inhalable dust (8 h TWA): 10 mg/m³

Respirable dust (8 h TWA): 4 mg/m³

8.1.1.1 The National Occupational Exposure Limit Values that Correspond to Union Occupational Exposure Limit Values in Accordance With Directive 98/24/EC, Including Any Notations as Referred to in Article 2(3) of Commission Decision 2014/113/EU

Not available

8.1.1.2 The National Occupational Exposure Limit Values that Correspond to Union Limit Values in Accordance with Directive 2004/37/EC, Including Any Notations as Referred to in Article 2(3) of Decision 2014/113/EU

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

8.1.1.3 Any Other National Occupational Exposure Limit Values		
Not available		
8.1.1.4 The National Biological Limit Values that Correspond to Union Biological Limit Values in Accordance with Directive 98/24/EC, Including Any Notations as Referred to in Article 2(3) Of Decision 2014/113/EU		
Not available		
8.1.1.5 Any Other National Biological Limit Values		
Not available		
8.1.2 Recommended Monitoring Procedures		
Not available		
8.1.3 Air Contaminants Formed		
Not available		
8.1.4 DNEL and PNEC		
Not available		
8.1.5 Control Banding		
Not available		
8.2 Exposure Controls		
Ensure that personal protective equipment is used in compliance with the relevant regulations and conditions.		
8.2.1 Appropriate Engineering Controls		
Install eye/face wash units and emergency safety showers near the work area for use in emergencies, injuries, and exposure situations.		
Implement air filtration systems in necessary areas in accordance with NIOSH and CEN standards.		
Design the usage area in a way that prevents environmental contamination from the product. See Section 7 for further information.		
8.2.2 Personal Protection Equipment		
Ensure that personal protective equipment is consistent with and linked to good occupational hygiene practices, engineering controls, and other control measures, including ventilation and isolation.		
See Section 5 for specific fire/chemical personal protective equipment recommendation.		
8.2.2.1 Eye and Face Protection		
Protective glasses (EN 166) should be used.		
Avoid eye contact.		
8.2.2.2 Skin Protection		
8.2.2.2.1 Hand Protection		
Impermeable gloves should be worn (EN 374-1) during propane deliveries, and leather gloves should be used when handling cylinders.		
8.2.2.2.2 Other Skin Protection:		

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

Protective work clothes should be worn.

8.2.2.3 Respiratory Protection

Use an FFP2 dust mask in poorly ventilated areas or if dust levels exceed recommended limits.
Avoid breathing dust.

8.2.2.4 Thermal Hazards

No information

8.2.3 Environmental Exposure Controls

The obligations within the framework of existing legislation for environmental protection must be fully fulfilled.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical State	Powder or granular
Colour	White - grey
Odour	Odourless
Odour Threshold	Not applicable
Melting Point/Freezing Point (°C) 760 mmhg	Uygulanamaz
Initial Boiling Point and Boiling Range (°C) 760 mmhg	Uygulanamaz
Flammability	Non-flammable
Lower and Upper Explosion Limit	Uygulanamaz
Flash Point (Closed Cup) (°C)	Uygulanamaz
Auto-Ignition Temperature (°C)	Uygulanamaz
Decomposition Temperature	Not available
pH	6 – 8
Viscosity @ 20°C (Liquid), cp	Not available
Solubility	Insoluble
Partition Coefficient n-Octanol/Water (Log Value)	Not available
Vapour Pressure (Bar)	Uygulanamaz
Density	1100 - 1200 kg/m ³
Relative Vapour Density	Uygulanamaz
Particle Characteristic	Not available

10. STABILITY AND REACTIVITY

10.1 Reactivity

No reactivity hazards under normal conditions.

10.2 Chemical Stability

Stable under normal conditions of storage and use.

10.3 Possibility of Hazardous Reactions

No hazardous reactions are expected.

10.4 Conditions to Avoid

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

Avoid excessive moisture and high temperatures.

10.5 Incompatible Materials

Avoid contact with strong acids and bases.

10.6 Hazardous Decomposition Products

None under normal conditions of use.

11. TOXICOLOGICAL INFORMATION

11.1 Information on Hazard Classes as Defined in Regulation (EC) No 1272/2008

This section contains information primarily intended for health professionals, occupational health and safety specialists, and toxicologists.

It includes a brief but complete and understandable description of the various toxicological (health) effects and the available information used to detect these effects, including, where appropriate, toxicokinetics, metabolism and distribution.

The information in this section is consistent with the classification of the substance or mixture. Fields with "Not available" indicate that there is no definite information obtained in studies.

Acute Toxicity:

No data available. Not expected to be toxic by oral, dermal, or inhalation exposure.

Skin Corrosion/Irritation:

May cause mild mechanical irritation.

Serious Eye Damage/Irritation:

May cause mechanical irritation.

Respiratory or Skin Sensitisation:

No sensitizing effects known.

Germ Cell Mutagenicity:

Not available

Carcinogenicity:

Not classified as a carcinogen by IARC, OSHA, or EU.

Reproductive Toxicity:

There is no information on the content of toxic substances for reproduction.

Summary Of Evaluation Of The CMR Properties:

Not available

STOT-single exposure:

There is no information available about Specific Target Organ Toxicity - Single Exposure,

STOT-repeated exposure:

There is no information available about Specific Target Organ Toxicity - Repeated Exposure.

Aspiration Hazard:

There is no information available about aspiration hazards.

11.1.1 Hazard Classes, Differentiation or Information for Effects

Not available

11.1.2 Hazard Information as Supplied for the Mixture

Not available

11.1.3 Information on Test Data

Not available

11.1.4 Additional Supporting Information on Classification Criteria

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

Not available.

11.1.5 Information on Potential Routes of Exposure

Eye Contact	Dust from the substance may cause mechanical irritation
Skin Contact	May cause irritation at the point of contact.
Inhalation	Inhalation of dust may cause irritation to respiratory tract.
Ingestion (Swallowing)	Not available
Target Organs	Not available
Medical Symptoms	Not available
Medical Warnings	Not available

11.1.6 Information on Physical, Chemical, and Toxicological Properties

Not available.

11.1.7 Chronic Effects from Short and Long-term Exposure, as well as Delayed or Immediate Effects

Not available

11.1.8 Interactive Effects

Not available

11.1.9 Absence of Specific Data

Not available

11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

The substance is not included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties. The substance is not considered to have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

11.2.2 Other Information

There is no additional information available regarding adverse health effects that are not required by classification criteria.

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Not expected to be harmful to aquatic organisms. The substance is inert.

12.2 Persistence and Degradability

Abiotic Degradation	Not available
Physical- and Photo-chemical Elimination	Not available
Biodegradation	norganic material, not biodegradable

12.3 Bioaccumulative Potential

No bioaccumulation potential.

Partition Coefficient n-Octanol /Water (log Kow)	Not available
Bioconcentration Factor (BCF)	Not available

12.4 Mobility in Soil

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

Known or Predicted Distribution to Environmental Compartments	Low mobility due to its insolubility in water.
Surface Tension	Not available
Adsorption/Desorption	Not available

12.5 Results of PBT and vPvB Assessment

This substance does not meet vPvB / PBT criteria of Regulation (EC) No 1907/2006, Annex XIII.

12.6 Endocrine Disrupting Properties

The substance is not included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties. The substance is not considered to have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

12.7 Other Adverse Effects

None known.

13. DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods

Perlite is classified as non-hazardous and inert. Dispose of the material in accordance with local, regional, national, and international regulations. If the product has been contaminated with hazardous substances (e.g., during industrial use), the disposal method should follow guidelines specific to those contaminants.

Perlite may be disposed of in inert landfill sites. Incineration is not recommended, as the material is non-combustible and will not contribute to energy recovery..

13.1.1 Product / Packaging Disposal

Clean, empty packaging can generally be recycled. If the packaging contains residues of hazardous materials, it should be treated and disposed of as per the waste management regulations for hazardous materials.

Waste Codes / Waste Designations According to LoW

EWC 10 13 11 - Wastes from the manufacture of glass and glass products, not otherwise specified (inert materials).

13.1.2 Waste Treatment-Relevant Information

Dust from expanded perlite should be controlled during handling and disposal to avoid environmental contamination. Use methods such as misting with water to suppress dust during collection and disposal.

If perlite has been used in industrial processes where it may have become contaminated, appropriate hazardous waste handling protocols must be followed.

13.1.3 Sewage Disposal-Relevant Information

Perlite should not be disposed of in sewage systems or waterways. While non-hazardous, its physical nature may cause blockages in pipes and drains.

In case of spills, avoid washing the material into drains or sewers, and instead, use appropriate cleaning methods to collect the material for proper disposal..

13.1.4 Other Disposal Recommendations

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0
Preparation Date: 01.10.2024

Form No: 612002
Reissue and Release Date: 1.10.2024

In general, disposal via landfill is the preferred method due to the material's inert nature. Follow local and national regulations regarding disposal in inert waste landfills. If perlite is used in processes where it may absorb hazardous substances, ensure that the disposal method complies with waste management practices for those substances. In the case of contaminated perlite, consult a certified waste disposal contractor to handle and dispose of the material in compliance with Waste Framework Directive 2008/98/EC and Landfill Directive 1999/31/EC. See Section 7 for safe handling methods.

Danish National Regulations : Young people below the age of 18 years are not allowed to use the product

Switzerland

Storage class (LK) : LK 2 - Liquefied or pressurized gases

15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

16. OTHER INFORMATION

16.1 Indication of Changes

16.1.1 Date of Reissue

Not applicable

16.1.2 Safety Data Sheet No

612002

16.1.3 Number of Issues

1.0

16.2 Classification and Procedure Used to Derive the Classification for Mixtures According to Decree No. 2-12-172 and Regulation (EC) 1272/2008 [CLP]

This substance has been classified based on Decree No. 2-12-172 and Regulation (EC) No 1272/2008 (CLP).

Physical and chemical properties: The classification is based on tested mixture.

16.3 Key Literature References and Sources for Data

The key sources of information used in the preparation of this safety data sheet include:

- Globally Harmonized System of Classification and Labelling of Chemicals (GHS) guidelines.
- Decree No. 2-12-172 of Morocco concerning the classification, labeling, and packaging of hazardous substances and mixtures.
- Regulation on the Classification, Labeling, and Packaging of Substances and Mixtures and its annexes

SAFETY DATA SHEET

according to GHS and 1907/2006 (REACH), Article 31
amended by Regulation (EU) 2020/878

PERLITE

Number of Issues: 1.0

Preparation Date: 01.10.2024

Form No: 612002

Reissue and Release Date: 1.10.2024

- Regulation on Health and Safety Measures in Work with Carcinogenic and Mutagenic Substances and its annexes
- Relevant other local regulations
- UN ADR, IMDG, IATA lists, ECHA, and relevant EU directives

16.4 Additional Information

- For recommended usage restrictions and non-mandatory advice, please contact our sales department.
- To ensure the protection of human health and the environment, and to promote a general safety culture among workers regarding exposure to the product and the comprehensible reading and usage of safety data sheets and label information, appropriate training is recommended.
- This Safety Data Sheet was compiled based on the most current available information and is intended to ensure the safe use, storage, and disposal of the product.
- In Morocco, this SDS complies with Decree No. 2-12-172 and the relevant GHS guidelines, while in the EU, it complies with REACH and CLP regulations.
- The product should only be used for the intended applications and must be handled according to local regulations in both the EU and Morocco.
- The information contained herein is believed to be accurate, but the user is responsible for ensuring compliance with all relevant regulations, including those specific to local jurisdictions.

Full text of H- and EUH-statements

Not applicable. Expanded perlite is not classified as hazardous under both the EU CLP and Moroccan Decree No. 2-12-172.

CLP: Directive 1272/2008 <Classification, Labeling and Packaging of Substances and Mixtures> published in EU

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road

RID: Regulations Concerning the International Transport of Dangerous Goods by Rail

ADNR: European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterways

IMDG: International Maritime Code for Dangerous Goods

ICAO: International Civil Aviation Organization

IATA: International Air Transport Association

TWA: Time Weighted Average

EWC: European Waste Catalogue

DNEL: Derived no effect level

PNEC: Predicted no effect level

PBT: Persistent, bioaccumulative und toxic substance

vPvB: Very persistent and very biaccumulative substance

CMR: Carcinogen, Mutagen or Reproductive Toxicant

EmS: Emergency Schedule

GHS: Globally Harmonized System
